

Print Studio Membership

Whether you're an amateur or an advanced screen printer, we'd love to have you as a member! Membership means that you have access to our online booking system, making it easy to book your sessions without waiting for approval - if the space is available, you can take it.

It also provides you with an A3 screen to use for the duration of your membership (both memberships), a storage box to keep all of your pigments, emulsions, etc. in, and of course you're more than welcome to leave your own screens (named) at the studio too. We order most of our supplies from UK/German print companies, so you're also welcome to add to these orders.

There are currently two membership options:

Open-access unlimited membership

1300sek +moms p/m for the first six months, then 1500 +moms

This membership means that you can print as much as you want! We decided to only allow for 5 full time members in our current space, so that everyone has enough time and space to print. You'll have access to all equipment (exposure unit, carousel, flatbed, ½ of the 6m print table or the whole table if needed, baker, squeegees, washout booth etc.), at no extra cost. Once you've registered, you'll gain access to our online booking system where you can see if the space/equipment you'd like to use is available to book.

Part-time membership, one day a week

1000sek +moms p/m

This membership allows you to print alongside your other work commitments - you can either choose one day that you want to come in every single week or you can book weekly if you're flexible. You'll also have access to all equipment (exposure unit, carousel, flatbed, ½ of the 6m print table or the whole table if needed, baker, squeegees, washout booth etc.), at no extra cost. Once you've registered, you'll gain access to our online booking system where you can see if the space/equipment you'd like to use is available to book.

We ask that if you do need to cancel your booking, that you do so with at least 24 hours notice so that others have the opportunity to take your space. If you make multiple late cancellations you may incur a late fee.

Please note that both memberships are primarily for weekday printing 9am-6pm, and sometimes we may have to close early (5pm) if we have a workshop, but this will be shown in the booking system. We can open on some weekends, and if you're a regular printer it may be possible to give you a key.

The current studio is located in a garage space underneath Nitty Gritty, Papercuts, etc on Krukmakargatan - we'd love to move to a more accessible space one day, but we've gone for 'function over form' and chose this space because it's a good size in a central location, and we wanted to spend more money on having the right equipment rather than a 'beautiful space'. There is a toilet on the floor below us and there will be one installed on our floor. There is no kitchen at the studio but we do have the basics of a sink and a fridge - which sometimes has beer in for end of the week/evening printing!
